Diseño Web

El diseño web abarca todo lo que es la arquitectura de la información, la estructura, la interfaz del usuario, el diseño, la navegación, las imágenes, los colores, las fuentes, entre otras cosas. Todo esto se utiliza y se combina con los principios del diseño con el fin de crear un sitio web que cumpla con todas las metas del diseñador y el propietario.

LIVE SPANISH TEACHER
Anytime, anywhere and at your own place

Spanish lessons with a live teacher...

Anytime, anywhere and at your own place.

Live Spanish Teacher provides live language lessons over the Internet, taught by excellent native teachers. The classes are provided on an individual or group basis. Our mission is to give you quality Spanish instruction with great convenience.

You can have your Spanish lessons wherever you have access to your computer: at home, in your office or from a hotel. There is no need for you to travel to a school with the additional time and expense this would entail. If your plans change and you need to work from home on a particular day, there is no need to cancel your lesson.

Start learning or improving your Spanish within 24 hours.

All it takes is three simple things:

- Have a computer with Internet access.
- Have a few hours per week to dedicate to Spanish.
- Sign Up.

How do I learn?

We have 8 different levels of Spanish following The Common European Framework of Reference for Spanish and the ACTFL (American Council for the Teaching of Foreign Language) standards.

You will take a test to help us determine your level of proficiency.

Individual Programs
The Individual Program is scheduled at your convenience during which the teacher will cover the grammar and vocabulary of the Spanish language needed to achieve your learning goals (i.e. Legal Spanish, Medical Spanish, Business Spanish, Travel Spanish, Sports, Travel Spanish, etc.).
This class is 100% interactive... with our virtual classroom you will be able to communicate with your teacher in real time.

Our Classes
Our Standard lessons are 60 minutes in length and are provided on an individual or group basis.
You interact live with your teacher online in a virtual classroom. You have the option to record your lesson recorded so you can replay the lesson as often as you would like on your own PC or laptop.
Your teacher can develop all of your language skills: speaking, listening, reading and writing. Our teachers have a vast experience and are highly qualified to teach their native language to foreigners.

Group Program
The Group Program is one hour per day and during your class you will cover different components of the Spanish Language.
You will practice grammar, comprehension, vocabulary, reading, writing and you will be able to practice with it.

How much?

GROUP PROGRAM	INDIVIDUAL PROGRAM
\$	\$
80 Hours \$10.00 USD per hour	20 Hours \$10.00 USD per hour
40 Hours \$18.00 USD per hour	40 Hours \$16.00 USD per hour
60 Hours \$16.00 USD per hour	80 Hours \$14.00 USD per hour
100 Hours \$12.00 USD per hour	100 Hours \$12.00 USD per hour

Student Comments...

Michael Coles
Norwich - ENGLAND

Because of my constant travels to Latin America I have not been able to take a course with a fixed schedule; but since I found LST (Live Spanish Teacher) I can now set up my private schedule and take classes in my spare time from all over the world. My conversational Spanish has improved tremendously in the 2 months since the start of online classes.

UI/UX

The image displays three distinct mobile application prototypes, likely created using Figma, showcasing various user interface and user experience concepts:

- Left Prototype (Top Left):** A music or sound app interface titled "White noise". It features a collection named "Forest collection" with a preview of track 04 ("Being in the forest"). Below this are other tracks: "Sound of wind", "The cry of insects", and "Bird cry". The interface includes a volume slider at the bottom.
- Middle Prototype (Top Right):** A travel-related app interface titled "Explore the Beautiful world!". It shows a search bar, a "Travel Places" section with cards for "City Rome" and "Grand Canyon", and a "Travel Groups" section for "The Wave Arizona". Each card includes a thumbnail image, a title, and a brief description.
- Bottom Prototype (Bottom Center):** An e-commerce app interface for "ISSACS". It includes a search bar, category icons for Clothes, Shoes, Bags, Hats, and Parts, and a "New Arrivals" section featuring items like the "PITTI Block - Jacket" and "BEPA Culture - Shirt". The right side shows a detailed view of the "PITTI Block - Jacket" with size/color options and an "Add" button. The final screen shows the "My Cart" page with three items: "AUCTP Delta - Tees", "PITTI Block - Jacket", and "Fall League - Short", along with a subtotal of \$235.97, shipping of \$3.78, and a bag total of \$239.76, with a "Proceed To Checkout" button.
